## Why Choose KiK?

KiK are a UK based vaping company providing e-cigarette and e-liquid products. We pride ourselves on quality, service and customer satisfaction. We are committed to using the highest quality materials and the most advanced technology to ensure you have the ultimate vaping experience.

Every product in the KiK range is manufactured to the highest standards, ensuring a quality product and a pleasurable experience for the consumer, enhancing repeat business.

OVER 100  
FLAVOUR &  
STRENGTH  
VARIANTS

## Excellent Value for Money

- Comprehensive range of sleek vaping kits, mods and accessories
- E-liquids: over 100 flavour and strength variants available
- 2 extensive ranges to suit any vaper's needs: KiK & KiK Cloud
- All our liquids are UK made and TPD compliant
- 500,000 regular users love our flavours
- Competitive prices

## Amazing Achievements

- 20% share of the independent retail market
- June 2015 - £1 million TV campaign which ultimately reached over 26 million viewers
- May 2016 - KiK had the last ever TV advert for vaping shown before advertising was banned on 20th May due to TPD
- First on Google for e-cigarette and electronic cigarette search terms
- More followers and likes on Twitter and Facebook than any other Vaping brand

Vape 02 kits  
Available in a choice of 6 of colours

## Core

Our core range of e-liquids offers the best quality, value and range to suit all. We have carefully selected something for everyone from traditional tobacco flavours to strawberry and energy drink.

KiK Core liquids are all 10ml in size and all come with a needle nib for ease of filling. In general, the most popular is menthol, followed by tobacco flavours and closely followed by fruits such as strawberry, blueberry and cherry. The makeup of these liquids is a base of 70% PG (propylene glycol) and 30% VG (vegetable glycerine). This means a strong throat hit and a good flavour throughout, and make our core e-liquid perfect for use in your vape 01 and vape 02.

- 0mg - 0% - Nicotine Free\*
- 6mg - 6% - Very Low Nicotine\*
- 11mg - 1.1% - Low Nicotine
- 16mg - 1.6% - Medium Nicotine

# KiK Vape Kits

## Vape 01

The KiK Vape 01 vapour cigarette original vaping kit, built for pleasure and performance of the highest standards for uncompromising quality. The 650mAh battery has Platinum Core Battery Cell Technology offering the same great KiK you would expect with a longer life electronic cigarette between charges. Our CE4 Clearomizer has 8 individual cotton threads to regulate the intake of liquid and prolong the life of your clearomizer for the best experience possible. The Vape 01 kit is available in 6 battery colours so there's one to suit all tastes.

- Original vaping starter kit. Available in black, white, silver, red, blue and pink.
- 650mAh Grade A battery.
- Platinum core battery cell technology.
- CE4 clearomizer.
- USB Charger.

S7761 KiK Vape 01 Silver	S7758 KiK Vape 01 Red
S7757 KiK Vape 01 White	S7760 KiK Vape 01 Pink

## Vape 02

The KiK Vape 02 is a more advanced vaping kit, developed to give a premium experience when commencing your journey with KiK. Built for pleasure and performance of the highest standard for uncompromising quality. The 900mAh battery has Platinum Core Battery Cell Technology offers even longer life for your electronic cigarette between charges. The KiK Protank is a more advanced clearomizer than the CE4. Instead of being a disposable unit, you can replace the wick and coil for a longer life cycle.

- Available in black, white, silver, red, blue and purple.
- 900mAh Grade A battery.
- Platinum core battery cell technology.
- KiK Protank clearomizer with changeable coils.
- USB Charger.

# KiK Cloud & Kits

## KiK Cloud

Mods and high VG liquids are now becoming more and more popular within the growing vaping market. When cloud chasing, it's important to have the combination of the right bit of kit and a quality high VG e-liquid, and that's where KiK Cloud comes in. Our KiK Cloud range will take your vaping experience further, helping you to produce bigger clouds of vapour with a more intense flavour.

## KiK Cloud MODs

Our most advanced kits are the KiK Cloud Mods, perfect for those looking for bigger clouds of vapour and delicious flavour. KiK Mods are available in two power settings; 30 Watt and 50 Watt, and have our first ever Sub-Ohm tank. Sub-Ohm refers to the resistance of the coil being less than 1 Ohm. The lower the Ohms, the lower the resistance, meaning the coil gets much hotter more rapidly. The hotter the coil, the stronger the flavour and the more vapour produced.

When either of these high-powered devices are vaped in combination with our low resistance Sub-Ohm coil, and of course one of our delicious KiK Cloud liquids, we guarantee you will get the best combination of flavour and vapour.

\* Feature also include in the 30W model

## Cloud 30W

The KiK Cloud 30W is the perfect Sub-Ohm Kit if you're interested in Cloud vaping, delivering cloud vapour all the way up to 30 Watts. The Cloud 30W kit comes complete with the KiK Cloud Sub-Ohm tank and replacement Sub-Ohm coils and also features a Micro USB port which makes for simple charging to the built in 1200mAh battery.

- Available in black, blue and white.
- 1200mAh Grade A battery.
- Sub-Ohm Tank.
- Micro USB port.
- USB Charger.

- S9951  
KiK Cloud 30W Black
- S9952  
KiK Cloud 30W Blue
- S9958  
KiK Cloud 30W White

## Cloud 50W

The KiK Cloud 50W is the higher powered Sub-Ohm Kit for those wanting the best of Cloud vaping, delivering huge cloud vapour all the way up to 50 Watts. The Cloud 50W kit comes complete with the KiK Cloud Sub-Ohm tank and replacement Sub-Ohm coils and also features a Micro USB port which makes for simple charging to the built in 2000mAh battery.

Safety features including output short circuit protection, reverse battery protection, low resistance warning, low voltage warning, and high input voltage warning.\*

Includes a 510 connection with a floating top pin that ensures all tanks will sit flush on this stylish mod.\*

- Available in black, blue and white.
- 2000mAh Grade A battery.
- Sub-Ohm Tank.
- Micro USB port.
- USB Charger.

- S9949

- S9950  
KiK Cloud 50W Blue
- S9957  
KiK Cloud 50W White

## Accessories

To keep you KiK MOD performing to its optimum standard there are certain items that will need replacing. We have the all of the vaping accessories you need. KiK Cloud accessories are made using the highest quality materials. They should only be used with Cloud Mods.

### Sub-Ohm Mod Replacement Tank

The KiK Sub-Ohm replacement tank is one of the most impressive on the market. The 2.0ml refillable tank has been built for maximum flavour capacity. Stylish adjustable airflow valve allowing you to can change the airflow to match your personal preference.

- 2.0ml capacity
- 510 threaded
- Stainless steel
- Airflow control valve

**S9953**  
KiK MOD Tank

### Sub-Ohm Tank Replacement Coils

- 0.5 Ohm resistance
- Stainless steel
- Sold in Packs of 3

**S9955**  
KiK MOD Tank Coil

## Liquid

Cloud Liquid is specifically formulated for Sub-Ohm vaping and use in the KiK Cloud mods. KiK Cloud liquids are high in VG (vegetable glycerine). VG is the part of your e-liquid that creates vapour - the higher the VG, the more vapour you can produce. KiK Cloud liquid is made of a minimum of 80% VG for lots of vapour and a sweet, smooth vape.

KiK Cloud liquids all made in our UK factory using the finest pharmaceutical grade ingredients. There are 10 delicious flavours which are produced in 30ml volumes, each available in 3

strengths of 0, 3, and 6mg. Notice that Cloud liquids tend to be in lower nicotine strengths, this is because the amount of vapour and flavour produced from the combination of a KiK Cloud liquid with a KiK Cloud mod will be far greater than that of a standard vape kit and a higher nicotine content would be too strong in this type of device. When Sub-Ohm vaping with a KiK Cloud liquid, all aspects of your vape are increased in volume – flavour, nicotine and vapour.

### STRAWBERRY JAM

Sweet sticky strawberry with that sugary jam after taste.
