## Introducing **TOTAL CBD**

**TOTAL CBD** offers simple and easy access to a selection of products and supplements for use in various applications.

**CBD** is extracted from hemp plants through CO<sup>2</sup> extraction or heat and evaporation depending on it's application.

From our base in Manchester, we create our range of **CBD** supplements using fully certified **CBD** (cannabidiol) which is delivered to us with a certificate of purity. This helps to ensure that we're creating products to the highest quality as well as providing the consumer with that extra peace of mind.

**CBD** is to be used as a daily supplement as part of a healthy balanced diet.

## Did you know...

**CBD** supplements are available to Olympic athletes and are a legal substance to be used in training.
